Now Is the Time to Prepare

Avoid disruption to your lab: upgrade your aging Agilent Cary 100, 300, 8453, or 8454 UV-VIS spectrophotometers

Keep your lab updated with the latest state-of-the-art technology, and reduce your lab's environmental impact

The Cary 3500 UV-Vis can measure up to 7 samples simultaneously, multiplying your experimental possibilities. After an independent audit, it has received My Green Lab's Accountability, Consistency, and Transparency (ACT) label for its environmental impact throughout the product lifecycle.

Xenon flash lamp with a 10-year warranty

– Reduce the frequency and cost of lamp replacement.

– Eliminate the need for daily warmups.

– Measure samples with the lid open, thanks to the instrument's room light immunity.

Modular design to support your needs

– Scalable: Expand laboratory capabilities by adding modules.

– Flexible: Each module provides advanced analytical tools for various sample types.

– Cost efficient: build UV-Vis solutions based on your application needs and budget.

Agilent Cary UV Workstation - an intuitive and secure software solution

– Intuitive software for different applications.

– 50+ built-in and customizable calculations.

– Comply with FDA 21 CFR Part 11, EU Annex 11 software suite.
